Section VIII - Precautions for Safe Handling and Use			
Steps to be Taken in Case Material is Released or Spilled:			
If container is ruptured and begins to leak, place in a well ventilated area and eliminate all ignition sources.			
Waste Disposal Method: do not discard empty container in incinerator or fire. Dispose of in accordance with Local, State, and Federal regulations.			
Precautions to be Taken in Handling and Storing: Store in cool area away from heat or open flame. Do not store above 130°F as containers may burst releasing the highly flammable propellant. "Store as Level Aerosol (NFPA 30B)			
Other precautions: In case of rupture, ventilate to prevent concentrations from reaching flammable levels. Note: any copies or redistribution of this M.S.D. Sheet must not be modified in any way.
