Description

Washroom Cleaner Concentrate is a blend of acids, wetting agents, emulsifiers and chelating agents to cut water spots, soap scum and scale on all tile surfaces. This product is safe on stainless steel and chrome. Can be applied with a sponge or sprayed on with a trigger sprayer. Washroom Cleaner Concentrate leaves surfaces clean and sparkling. Fresh fragrance.

Product Benefits

- Super Concentrated
- Fresh Fragrance
- Mild Acid
- Fast Acting
- Safety Caps
- Color Coded

Directions

Mix #40 using dilution station into spray bottle or mop bucket. For floors mop solution on to floor and pick up soils and cleaner in one operation. Let dry. For surfaces apply by spray and agitate with cloth. Wipe away soils.
