GRIDDLE CLEANING FACTS

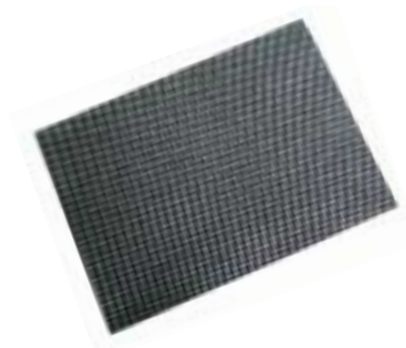

The GrilBrik® is the markets leading griddle cleaner.

Don't bother unwrapping the brick before use.

The protective wrap acts as a holder and will not stick to the grill surface.

Griddle Pad Screens

Use Griddle Screens for those times when you do not need to clean a heavily charred griddle or for use after cleaning with a GrilBrik®. For more effective cleaning, use the Griddle Screen with a Griddle Pad. Griddle should be 212 degrees fahrenheit or less. The pad allows the particles from the griddle to soak up through the Griddle Screen and will help keep the screen from clogging. Choose any of our Griddle Pad Holders to protect hands from grease and burns. Griddle Screens measure 4" x 5 1/2".

Scrubbers

Stainless Steel Scrubbers

Scrubbers are made of high-grade stainless steel with four-sided strands, giving four cleaning edges to handle the toughest jobs. Because each scrubber is made of a single strand of stainless steel, they will not tear or splinter. Will not rust or corrode.

"300" Series - Premium Grade

Manufactured from "300" series high quality stainless steel (18/8). Great for highly aggressive cleaning jobs when scratching is not an issue.

"400" Series - High Grade

Manufactured from less expensive "400" series wire construction. This scrubber has effective properties for the removal of baked-on deposits and other medium duty jobs.
